

## Hygienic Pinch Valves

TRI-Clamp, IDF and RJT Fittings available

We can offer special TRI-clamp, IDF and RJT fittings on our smaller socket type Pinch Valves. We can also offer Stainless Steel Spigots for the flanged type Pinch Valve. These valves are 100% suitable for food quality and pharmaceutical applications. We weld the special connection to the the existing socket from the outside ensuring the Pinch Valve still has a true and full bore.

Please find a list below of all the different connections that can be fitted to our Pinch Valve range;

Types of connections

- BSP female
- Hose tail connections with or without union
- RJT male or female
- IDF male or female
- Tri Clamp/Clover
- Stainless Steel spigots

Available sizes

- Socket Pinch Valves available from sizes 10mm - 50mm
- Flanged Pinch Valves available from 40mm - 100mm
